

HAMBLETON FLOOD ISSUES		Mike O'Flaherty - Resident	20/02/2020
#	Item	Notes	Action
LCC-1	Strengthening Flood Risk Management Report Nov 2019	Where and how will the actions recommended be monitored and reported on	
LCC-2	Register of assets	Does LCC use the list to manage flood risk as required by law	
LCC-3	Section 19 reports	Various actions are recommended what action does LCC take to ensure completion	
LCC-4	Carr Lane "Coppins" area	Email sent to Mark O'Donnell requesting details of work proposed yet to start.	
LCC-5	Plans	I request a copy of surface water pipework covering all of Carr Lane	
LCC-6	Carr Lane 3 Market St	Gullies blocked / pipes blocked, road flooded gullies still blocked (beech nuts from trees) (Pam Morgan)	
WBC-1	Planning	WBC planning are capacities existing system considered when new house planning is reviewed.	
WBC-2	Planning	(UU has undertaken to supply such information for Hambleton as ALL the sewage flows through Kiln Lane Pump Station. At what point is planning refused	
WBC-3	Wyre Council Assets	Do Wyre Council have assets they manage that are relevant to Hambleton Flooding	
WBC-4	Culverted Water Course	The outfall has been opened up, who responsible for ensuring the drain is working (accepted that is riparian ownership) do the council need to send out letter??	
WBC-5	Issues and actions log	This does not accurately represent Hambleton Issues, can this be corrected	
EA-1	Plans	Plans from EA	Emailed 10/1/20 Paul Bond - EA
EA-2	Flood Defence Wyre River	Why has this been halted. What is the basis of the delay to Flood Defence Scheme, criteria, factors, does list exist of proceeding and delayed projects, PB undertook to advise	Feedback promised at last forum
EA-3	Carr Lane Coppins Flooding	Covered ditch adjacent does not flow properly, who is responsible for asking the land owner to clear the water course or even remove the pipe to give an open ditch.	
EA-4	Wardelys Creek	Desilting ?	
EA-5	Marsh Lane	Blocked pipe at concrete head wall, blocked pipe at road headwall, outfall desilting (John George Thompson)	
UU-1	Kiln Lane Pump station	What level of tide impede the operation of this emergency	
UU-2	Kiln Lane Pump station	Information can a full set of pump station plans be available for review.	
UU-3	Kiln Lane Pump station	Does UU consider they should provide a warning of potential flooding based on the fact 'their' Kiln Lane System is inadequate	
UU-4	Kiln Lane Sherbourne	UU advise remodelling and monitors to be placed within the month	
UU-5	Sherbourne Rd	Existing underground pipework in Sherbourne road was marked on the 2013 drawings as a query, has anything been done here, has UU mapped it. Manholes are tarmaced over
