Time to plan Wyre's future

Wyre Council is producing a Local Plan which will set out how the borough physically develops over the next 15 years and we need your help.

Public views are now being sought at this early stage of the plan - **Issues and Options** - which considers how best to meet the demands of an increasing population and where to locate new homes, employment and shops.

It is essential that people get involved at this early stage before any decisions are made. Our plan must provide new housing and economic growth in a way that protects our valued environment and is in keeping with local heritage and landscapes.

We want to see communities grow in a sustainable manner, with sufficient investment in infrastructure such as road improvements and additional school places.

This is a real opportunity to play a part in shaping your area for the future, so please tell us what you think!
